Re: U.S. Patent Application of Ronald L. Prouty for Two Sided Work Glove

Dear Ron,

I have enclosed a copy of the specification and claims as filed with the U.S. Patent and Trademark Office on this date.

I will notify you when I receive the filing receipt for this application, which will confirm the filing date of July 29, 2003, and will also provide the serial number of the application and a foreign filing license. I expect that it will be approximately eight to fourteen months before we receive an office action on this application, and I will notify you of the receipt of an office action before responding to the U.S. Patent and Trademark Office. As we discussed filing for a patent application is not a guarantee that it will be allowed by the patent office. Generally there will be one or two rejections/objections by the patent examiner that we will have to attend to. The additional cost of prosecution for these rejections will be determined by the amount of time it takes to reply to them.

If you have any further questions regarding this application, please feel free to call me.

Very truly yours,

Mark S. Hubert
